The Pistner House's spellbinding beauty and precision brings to life the culture and history of an elegant era. After years of study, Patricia Pistner commissioned this architectural model to express her love of 18th-century French design. Ten years in the making, the house, rooms and furnishings represent some of the finest examples of the Louis XIV through Louis XVI periods. Utilizing the standardized scale of one-inch to one-foot, more than 60 of the world's finest artists were required to render in exacting detail some of the most important pieces of 18th-century French furniture and accessories. The Pistner House has drawn international acclaim since it went on display in November 2000 as part of the Masters of Miniature exhibit at the Naples Museum of Art. The NY Times reviewer reported that " . . . the revelation of the museum was the miniature rooms. They are the best I have ever seen, and I know my miniature rooms." This book offers the reader the rare opportunity to explore and understand the extraordinary beauty of The Pistner House and other features of the Masters of Miniature exhibit, as captured in exquisite detail in the more than 100 color illustrations.
